- GBV Client -

KFAM gave us a lot of help and guidance during the hard times. KFAM pushes us to be the best and there are a lot of rules, paperwork and regulations, but it is for our children and that is what makes it so important.

- CCFP Client -

"I felt a language barrier, and the cultural differences were difficult to overcome. Because we had different preferences of food, we ate separately. Between the foster parents and I, it was difficult to discuss important matters and simply talk."

- AFFI Client -

"Through counseling at KFAM, I began re-creating my sense of self and started seeing a positive future for myself... This was the beginning of my recovery & believe my recovery was possible through their help."
